## **Problem Description:**

**What potential problem does our local high school have that could be solved by a small grant application to a local foundation?**

## **Things to be considered or defined for the solution:**

- Who from the school should be included in brainstorming potential problems solvable by a grant?
- Who provides grants to schools?
- What types of grants are provided and what are the expectations of the granting organizations?
- What needs to be included in a reasonable grant proposal?
- Who would take care of the money if the grant is received?
