<b>Standards &amp; Skills:</b>	AP.SM.2 Skeletal System AP.SM.3 Muscular System

## Problem Description:

Patient presents a prescription with the following orders from a doctor: Right shoulder pain.

## Things to be considered or defined for the solution:

- What type of health practitioner are you?
- Is this within your scope of practice?
- In what type of facility are you treating?
- Does this patient have insurance?
- What is the patient's age, occupation, and gender?
